```groovy
apply plugin: "application"

mainClassName = "my.Application"

sourceCompatibility = 1.7

targetCompatibility = 1.7

dependencies {
    testCompile("junit:junit:4.12")
}

repositories {
    jcenter()
}

task rebuild {
    group "my"
    dependsOn "clean", "assemble"
}
```

```groovy
plugins {
    application
}

application {
    mainClassName = "my.Application"
}

java {
    sourceCompatibility = JavaVersion.VERSION_1_7
    targetCompatibility = JavaVersion.VERSION_1_7
}

dependencies {
    testCompile("junit:junit:4.12")
}

repositories {
    jcenter()
}

tasks.create("rebuild") {
    group = "my"
    dependsOn("clean", "assemble")
}
```
